

Avery Dennison Digital Ink Solutions

Primers for Demanding Applications

High Quality Products Made in the USA

Avery Dennison Digital Ink Solutions is a high quality manufacturer of digital inkjet inks. We manufacture all of our products in the U.S.A.. The inkjet industry is expanding into new applications, and new ink technologies are constantly being introduced. To stay ahead of your competitors, partner with a team that has a proven ability to release new technologies and award winning ink products. We offer the latest technology in primers and static cleaners. Our UV curable primers were specifically designed for printing to difficult substrates. The PlastiBoost cleaner is a two-in-one product that cleans and destatics plastic boards.

Best-in-Class Inks

Quality first pride from Avery Dennison Digital Ink Solutions, translates to customer's worry-free use of our products. We are the right partner when you are looking for both quality and performance. Our outdoor inks use highly durable automotive grade pigments that give our products the strength and fade resistance to hold their colors in outdoor applications. We offer best-in-class products for solvent inks, natural solvent inks, UV curable inks, LED/UV curable inks, dye sublimation inks, and water-based inks.
