

Avery Dennison PlastiBoost

PRODUCT DESCRIPTION

PlastiBoost is specially formulated for high performance, trouble-free printing. Avery Dennison's tight manufacturing specifications ensure consistent quality batch after batch. The value of Avery Dennison inks is unmatched in the industry. Avery Dennison products offer expanded color gamut, long term outdoor durability, superior adhesion, and the lowest maintenance requirements of any ink in the digital inkjet marketplace. Avery Dennison is setting the standard for the level of technical support and is unmatched by the competition. PlastiBoost uses the latest technologies available to provide unmatched performance on plastics, when used in conjunction with Avery Dennison branded inks. This product expands the applications suitable for all inkjet inks printing on plastics. PlastiBoost provides an increase in adhesion, abrasion and water resistance for all inks on most plastics.

PRODUCT HIGHLIGHTS

- Premium Quality
- Best Value
- Consistency
- Superior Adhesion
- Kills Static
- Performance
 - Abrasion/Scratch Resistance
 - Optimized Printer Performance
 - Minimal Printer Maintenance

TYPICAL USES

Graphics printed on Plastic Substrates.

DRYING/CURING PARAMETERS

PlastiBoost is formulated to be sprayed on and then wiped off of the substrate

HANDLING AND STORAGE

All personnel handling the PlastiBoost should wear appropriate gloves and eye protection. The product should be stored tightly closed with a room temperature range of 5–40C (41–104°F). The shelf life of this product is 12 months from the Date of Manufacture. PlastiBoost should be kept away from UV light, direct heat, sparks, and flames. The product should be stored in its original packaging until time of use.

AVAILABLE PACKAGING

This product is available in 32oz. Bottles. Custom packaging is also available.

DISCLAIMERS

Avery Dennison Corporation stands behind the quality of its products. However, Avery Dennison cannot guarantee the finished print output because we have no control over the printing equipment set-up or process. While Avery Dennison will provide sound technical advice on the use of our products, it is the user's responsibility to ensure that the products being used are appropriate for the end use application. All of the information contained within this technical data sheet is accurate as of the date published, this sheet may be updated or deleted as new information becomes available.
